Janki
METAL STRIPS LTD

Manufacturing a stainless, sustainable and stronger tomorrow.

Janki
METAL STRIPS LTD

WHO WE ARE

Built on Stainless Steel. Growing with purpose.

Founded in 2011, **Janki Metal Strips Ltd.** has grown from its roots in the raw material for stainless-steel utensil industry into a broader stainless-steel operation covering **ingots, billets, hot rolled bars and customised products.**

Today, we are expanding our capabilities across **melting, processing and downstream product forms,** with a focus on higher-value grades, stronger process control and greater consistency across requirements.

Our mission is straightforward: make material our customers can rely on — technically, consistently and commercially. We envision putting Indian steel on the global map.

40+ years
Industry experience

15k+ sq.yd.
Manufacturing Facility

30k+ MT/year
Melting Capacity

200+ people
Behind the Process

WHY JANKI METAL STRIPS

The confidence behind every order.

Traceable, quality-checked material.
Clear specifications. Defined requirements. Heat traceability. Quality checks at the stages that matter.

One point of contact
A named point of contact and transparent communication from enquiry to dispatch.

Made to your requirement.
Material manufactured against the specified grades, dimensions and tolerance standards.

Reliable supply, planned around your needs.
Clear commitments and reliable delivery timelines that help you plan production with confidence.

PRODUCT 1: ROUND BARS

Size Range	16.00 - 180.00 mm
Condition	Hot Rolled, Annealed, Pickled
Tolerance Standards	K12, k13, ASTMA484, EN10060, DIN1013
Applications	MACHINED COMPONENTS, FORGING, FASTENERS, PUMPS & VALVES

PRODUCT 2: BRIGHT ROUND BARS

Size Range	16.00 - 100.00 mm
Condition	Peeled and Polished
Tolerance Standards	h9, h10, h11, ASTMA484
Applications	PRECISION TURNED PARTS, HYDRAULIC COMPONENTS, TEXTILE MACHINERY, DAIRY & BEVERAGE PLANT

PRODUCT 3: ROUNDED CORNER SQUARE

Size Range	45.00 - 100.00 mm
Condition	Hot Rolled, Spot ground, Fully ground
Tolerance Standards	ASMTA484
Applications	RE-ROLLING MILLS, OPEN-DIE FORGING, BRIGHT BAR DRAWING, FLANGE MANUFACTURE

PRODUCT 4: HEXAGONAL BARS

Size Range	16.00 - 55.00 mm
Condition	Hot Rolled, Bright
Tolerance Standards	h11, ASTMA484
Applications	NUTS & FASTENERS, TURNED COMPONENTS, VALVE STEMS, COUPLINGS

PRODUCT 5: INGOTS

Size Range	5.5” × 6.5”; 6” × 7”; 7” × 8”; 8”×9”; 9” × 10”; 10” × 12”
Condition	Cast & Hot Top forging quality
Tolerance Standards	Spot ground, Fully ground
Applications	RE-ROLLING, FORGING, FOUNDRY CHARGE, HEAVY SECTIONS

PRODUCT 6: SQUARE BARS

Size Range	16.00 - 55.00 mm
Condition	Hot Rolled, Bright
Tolerance Standards	h11, ASTMA484
Applications	GRILLS & GATES, STRUCTURAL FRAMES, MACHINERY PARTS, ARCHITECTURAL FABRICATION

PRODUCT 7: FLAT BARS

Size Range	170mm, thickness 7 to 20 mm
Applications	DOWNSTREAM PROCESSING, PATTA ROLLING, ARCHITECTURAL TRIM, KITCHEN EQUIPMENT

PRODUCT 8: COIL

Size Range	0.3 to 3mm, custom available
Condition	No. 1, 2B , BA , No. 4 , Hairline
Tolerance Standards	Mill-edge, Slit-edge
Applications	AUTOMOBILE PARTS, UTENSILS & COOKWARE, GENERAL FABRICATION, PRESSED COMPONENTS

THE JANKI QUALITY ASSURANCE

Material verification
Chemical composition checked against the specified grade.

Process control
Key stages are monitored to maintain consistency through production.

Dimensional inspection
Dimensions, surface condition and physical requirements checked against specification.

Final inspection
Material verified before dispatch against the agreed requirements.

OUR FACILITIES

Where our steel takes shape.

Our Dholka facility houses a dedicated melting shop with **two Inductotherm induction furnaces** and a melting capacity of **2,500 MT/month.** Grade-wise scrap sorting, controlled melting and top- and bottom-pouring processes form the foundation of our production.

SELL YOUR STAINLESS SCRAP

Have Stainless Steel Scrap? Lets Talk.

We buy segregated stainless scrap and ferro alloys as direct charge for our furnaces — grade-appropriate rates, honest weighment and prompt payment.

What we buy:

GRADES

304 / 304L
316 / 316L
202 / 201
409 / 430
17-4 PH
2205 Duplex
Nitronic pipes
Nickel alloy scrap
Various other grades in SS
Mixed lots (tested and sorted)

FORMS

Turning scrap — grade-wise segregated
Solid scrap — plates, sheets, rounds, flats, pipes
Punching scrap
Industrial scrap

FERRO ALLOYS & VIRGIN METALS

Ferro manganese (FeMn)
Ferro molybdenum (FeMo)
Manganese metal
Ferro chrome (FeCr)
Pure copper and copper % scrap
